SSCo Provision	£ 875.00
Total expenditure	£ 8,415.00

The effect of the premium on pupils' PE and sport participation and attainment

Impact of this year's spending, including sustainability:-

25% increase in pupils actively engaged in lunchtime sports activities through led activities, with sports coaches. In addition midday supervisors observe sessions to ensure future sustainability if the school is unable to fund continuing coaches in the future.

In addition improved impact on pupil behaviour at lunchtime due to positive behaviour management through sport.

Teaching staff develop PE teaching skills by observing qualified coaches eg: Swimming tuition, currently provided by instructors, but staff increase skills by observation of lessons.

All KS2 pupils able to swim 25m by end of Year 6, many children achieve substantially more than this and are encouraged to become actively involved in extracurricular swimming eg: clubs outside of school.

Purchase of Power of PE package for all year groups, after initial trial in EYFS. All teachers have valuable resource for all type of sport/ training package/lesson plans, ensure quality provision and breadth of curriculum, also ensure by developing class teacher skills and confidence, sustainability is ensured.

Through links with Lynn Sport, all pupils able to access a greater range of sport provision than would otherwise be possibly in a small school eg: climbing wall, full size 400 m track sports/athletics/ curling/badminton. Encouraged pupils to explore different sports provision outside of school.

Specialist dance teacher for all KS1 children, allows pupils and teacher to develop dance skills. Children grow in confidence and are happy to perform to their parents and peers in a range of dances eg: ballroom. Dance lessons also support the school productions eg: nativity, impact on XC PE.

Netball club is run by a qualified HLTA and has been very successful, reaching the County finals. This year the impact has meant that now 2 clubs will be running as interest in younger years is so high. Allowing pupils to learn and train earlier and experience provision for competition both in and between schools.

Through SSCO, pupils have been able to enter competitions in various sports, including cross-country and tennis.
