

## Summer Planning:

Literacy and Numeracy will follow the National Curriculum. We will continue to work very hard on these subjects.

Science: This term we will be looking at Living Things and Their Habitats, including animals and humans. This will include parts of plants and pollination and continuation of species.

R.E: We will look at how faith is expressed through the Arts, including paintings and statues. We will also continue to ask the bigger questions which can sometimes be difficult for us to understand and answer.

Art and D.T: This will fit with all topics but include clay work, cooking and designing using various materials.

Music: With Mrs Strudwick looking at ballads and then consolidating the year's work in a unit called Rewind.

P.E/Games: This will include summer games and athletics. We are also making our annual trip to Horstead where the children will enjoy a wide range of out-door activities, including canoeing, rock climbing, raft building and lots of water!

History & Geography: Comparing people and places. We will be travelling to various continents to explore the history and landscape of these countries and famous landmarks. We will also be looking at 'Earth Matters', for example the water cycle and volcanoes.

I.C.T: Used cross curricular. Also continue to work with the Lit Bot and Scratch computer programmes.

MFL: Continue to expand our knowledge of French.
